

Policies

Company policies are how we operationalize our values and conduct ourselves as an organization. Everyone is expected to be aware of these policies.

Equipment policy

Rules

1. We use equipment for at least four years
2. Equipment emissions are part of the purchase decision.
3. We repair instead of replace.
4. We actively minimize our inventory.
5. We aim to provide real-time inventory tracking.

Wage policy

Once a year, we communally discuss potential changes to our wage sheet. Everybody on LibScie's payroll gets invited to this discussion.

Wage scales are separate for employees and formal directors. Formal directors have different contracts and are registered in the German Chamber of Commerce, which carries additional obligations and responsibilities. Directors receive 12 months' pay, whereas employees receive 12 months' pay plus two holiday payments (yearly = 14 monthly salaries).

Each person in the organization is scaled according to their tenure in years with LibScie. During your first year after your start date, you are in scale 1. If you have been with the organization for 5 years, you are in scale 5. Overall, you get a lifetime pay rise of 62% notwithstanding inflation correction or future changes.

Event policy

We consider any gathering of people, **at our request**, an event.

Rules

1. We run our events virtually by default.
2. Local in-person events are permitted when a clear purpose is articulated and documented.
3. Everywhere [we can go in 8 hours with public transport is considered local](#).
4. In-person events only happen with the consent of attendees.
5. Hybrid events are organized as virtual first.
6. The event policy applies to both internal and external events, which happen at our request.
